PUBLIC MEETING #1 - NOV. 21, 2013 POWER POINT PRESENTATION

Tonight's Agenda

- Introduction
- The Park's Context
- Survey
- Understanding the Park
- Small Group Discussions
- Small Group Reports
- Summary

Purpose of Tonight's Meeting: INVENTORY AND ANALYSIS

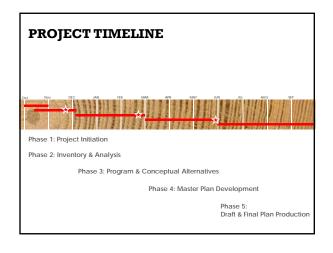

To show how Pease Park has evolved over time, what it is made of, and to hear your thoughts about the park and it's future.

This meeting is <u>not</u> about decisions or design, which will come in the next phases of the process.

PROJECT COORDINATION City of Austin Technical Citizen Groups **Advisory Group** City Departments: **Shoal Creek Conservancy Austin Parks Foundation** Parks & Recreation Lady Bird Johnson **Watershed Protection** Wildflower Center **Urban Forestry Neighborhood Associations Public Works University of Texas Student** Transportation Body Capitol Metro **Bicycle Advocacy Groups Public Information Office**

Janet Long Fish

Why Do a Master Plan?

- Currently no master plan: opportunity
- Impact of climate change (flooding and drought)
- Tree loss, invasive plants and erosion
- Major water quality investment by City
- Increased pressure from population growth
- Community Interest: formation of Pease Park Conservancy and Shoal Creek Conservancy
- Blueprint for future, comprehensive long term strategy
- Vehicle for funding

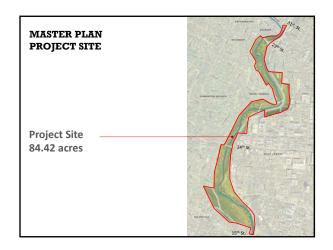

SHOAL CREEK PROJECT SITE 84.42 acres PROJECT LENGTH 2.1 miles (along Shoal Creek) SHOAL CREEK 10.1 MILES

SHOAL CREEK TRAIL
SHOAL CREEK

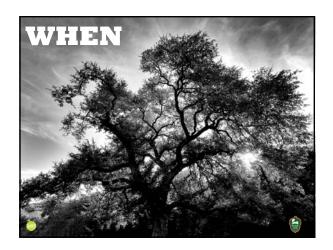

WATERSHED 13.1 SQ.MILES (8,384 acres)

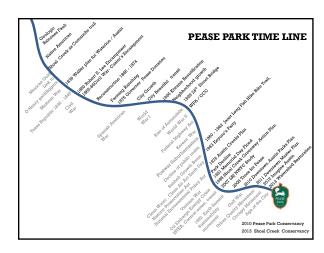

6.82 MILES

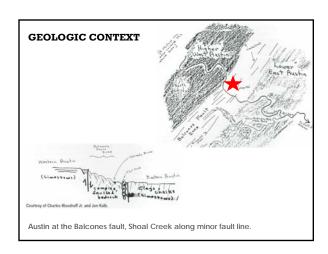

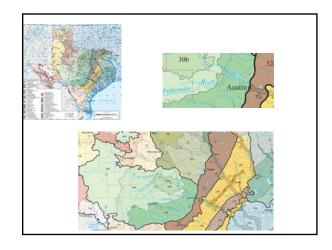

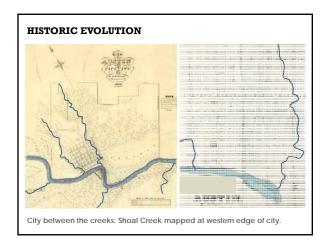

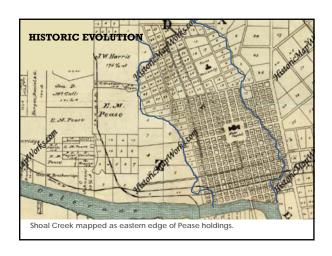

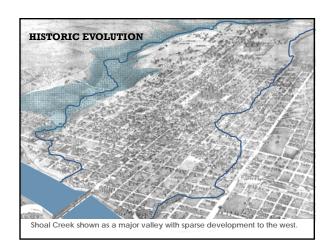

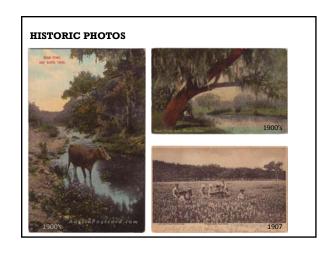

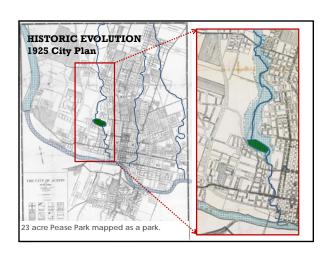

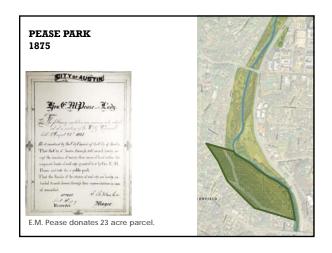

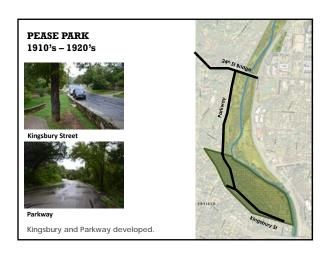

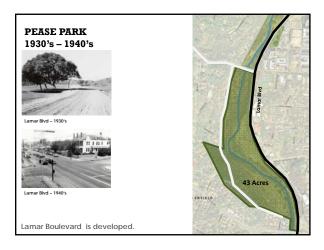

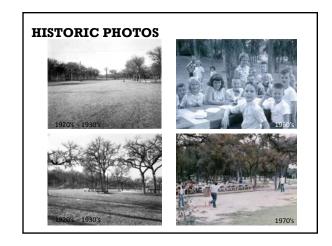

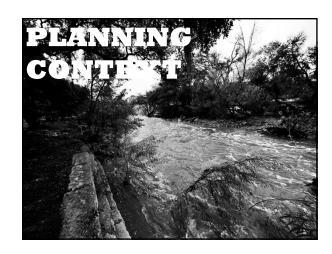

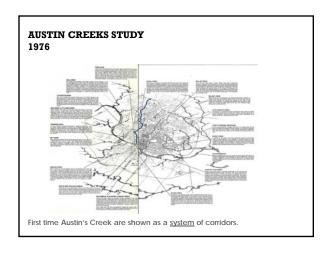

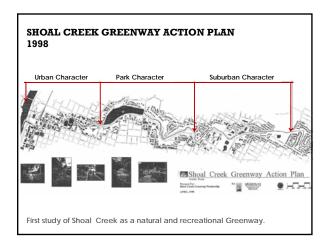

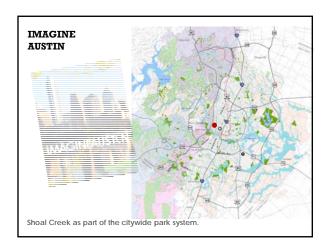

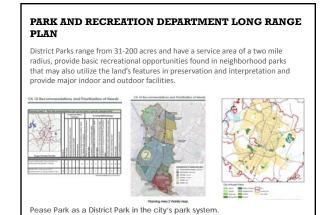

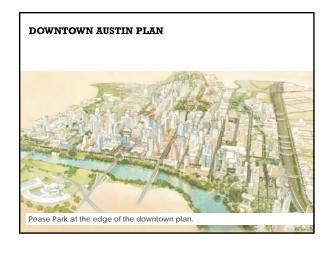

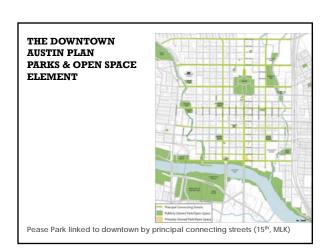

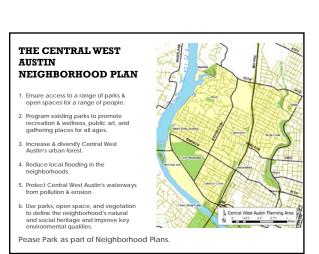

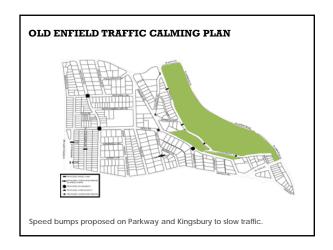

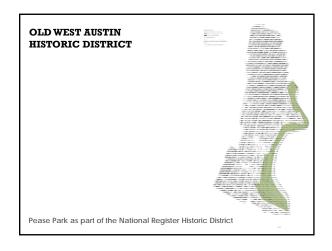

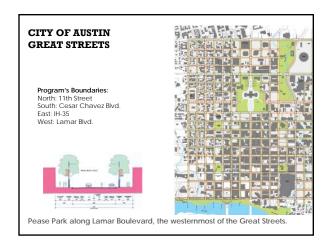

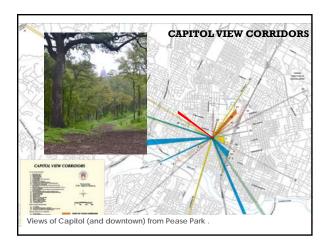

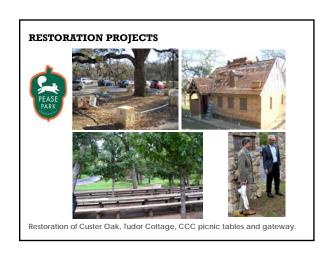

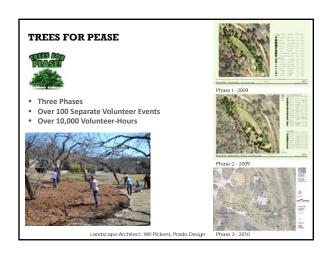

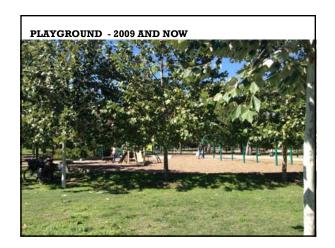

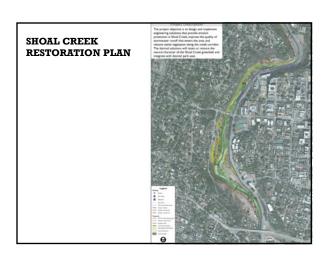

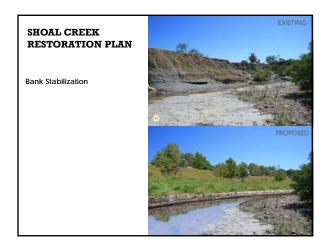

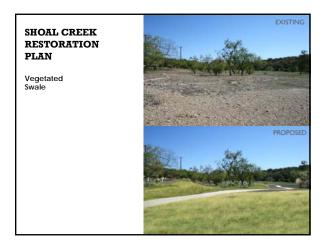

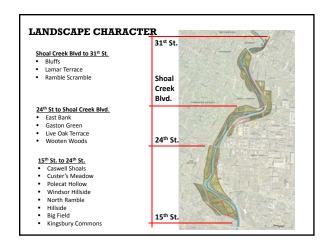

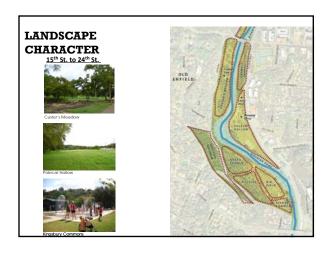

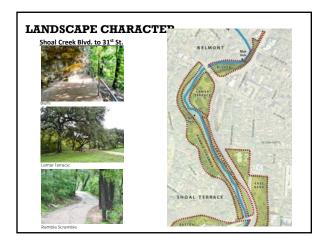

Which school has the best football program?

1. University of Texas

2. University of Oklahoma

3. Texas A&M

o% 4. Texas Tech

5. None of the Above

Approximately how far away do you live from the project area?

15% 1. Property abuts the project area

2. Within 1 mile

13% 3. 1 – 2 miles

15% 4. 2 – 5 miles

5. More than 5 miles away

Approximately how often do you visit the project area?

13% 1. Every day

2. A few times a week

43% 3. A few times a month

19% 4. A few times a year

0% 5. Never

What time of day do you usually visit the project area?

47% 1. Morning

and 2 Afternoon

7% 3. Evening

4% 4. Night

How do you get to the project area?

1. Walk / Jog
15% 2. Bike
38% 3. Car
0% 4. Bus

Where do you normally enter the project area?

1. Kingsbury Street / Parkway Street
2. Custer's Meadow
3. Lamar Blvd Bus Stop @ MLK
4. 15th St / Lamar (Shoal Creek Trail)
5. 24th Street
6. Shoal Creek Blvd
7. Gaston St
13%
8. 29th Street / Lamar
4%
9. 31st Street / Lamar

What activities do you currently enjoy in the project area? (pick up to 3)

78%

1. Walking / Nature Hikes

17%

2. Jogging / Cross Training

28%

3. Biking

17%

4. Picnics / Grilling

11%

5. Playground / Splashpad

30%

6. Dog Park

0%

7. Softball

7%

8. Volleyball

13%

9. Birding

30%

10. Eeyore's Birthday Party

What type of amenities are missing that would you like to see in the project area? (pick up to 3)

7%

1. Additional Playgrounds / Splashpads

18%

2. Additional Court Games

30%

3. Café or other Food/Beverage Opportunities

43%

4. Restrooms

14%

5. Trailheads

20%

6. Interpretive Signage

18%

7. Nothing

27%

8. Lighting

11%

9. Additional Picnic Tables / Benches

32%

10. Additional Multi-Use / Hiking Trails

Please rank the following four functions of the park in order of your concerns (first answer is most important, last is least important)

Natural Resources
 Cultural Resources
 Recreational Amenities

How important is it for you to get to the creek when you visit the project area?

34%

1. I always try to get to the creek

36%

2. I sometimes try to get to the creek

27%

3. I hardly ever try to get to the creek

4%

4. What creek?

The pedestrian crossings along Lamar Blvd to the project area are:

Just right – no changes necessary
 Not enough, there should be more & safer

3. Right amount, but needs safety enhancements

Do you think of the project area as a......?

13%
1. Neighborhood Park
13%
2. District Park
18%
3. Historic Park
16%
4. Urban Park
24%
5. Green / Open Space
0%
6. Stormwater Conveyance
5%
7. Transportation Corridor
11%
8. Wildlife and Environmental Corridor

How did you hear about this meeting? (check one or more)

12% 1. Newspaper

5% 2. Radio

51% 3. Neighborhood Email

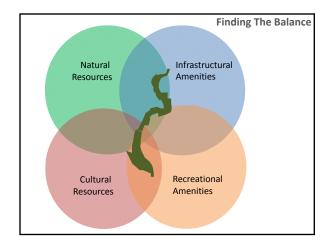

40% 4. Signage in Park

19% 5. Website

26% 6. Facebook/Twitter

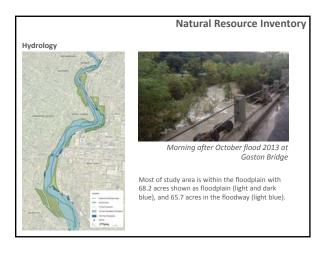

Shaping The Vision

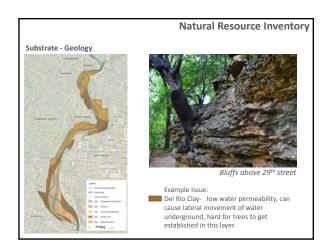

Please Provide on your Post-It sheet, a word, phrase or sentence that expresses your idea about the vision for Pease Park.

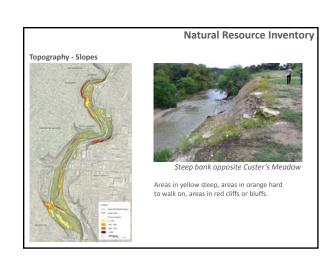

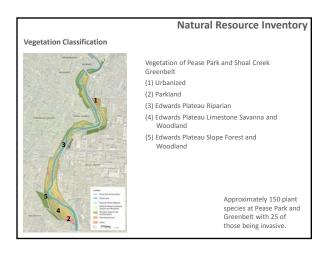

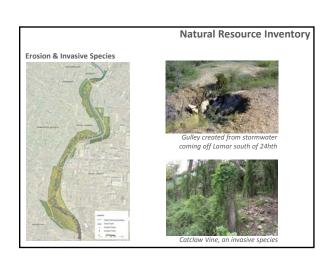

Context Eastern Edwards Plateau In Shoal Creek Watershed – 8,300 acres Study area about 1% of total watershed at 84 acres Highly Urbanized, 60% of the watershed is impervious cover City of Austin Watershed Protection evaluate the condition of Shoal Creek to be "Fair" with concerns being higher bacteria counts and lower aquatic animal populations. Region of the Contract of the C

PEASE PARK MASTER PLAN

PUBLIC MEETING #1 - NOV. 21, 2013 VISION STATEMENTS

Pease Park

Public Meeting #1 November 21, 2013

Public Input Comments

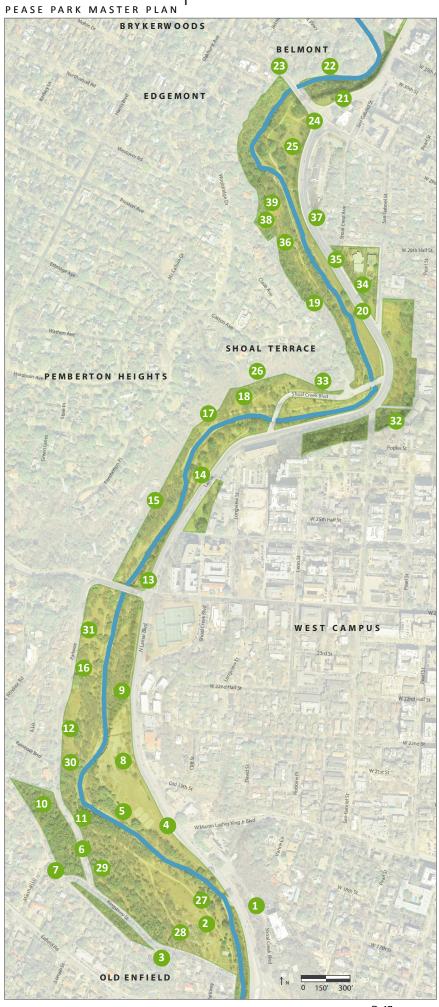

Vision Statements

- 1. Pease Park Rules!
- 2. Wider curb
- 3. Corridors / cut thru
- 4. Cluster parking
- 5. A clean, safe beautiful destination for FUN!
- 6. Recreation amenities
- 7. A place for the community (kids and families) to get together and play the game of petanque
- 8. The creek is the main artery of the ecosystem and recognizing human activities are a big part of the system.
- 9. A major focus of the master plan should be to maximize the health of the creek
- 10. A beautiful park with a wonderful forest
- 11. A beautiful forest with a wonderful park
- 12. An island of nature in the city open to everyone, full of life.
- 13. Central point for communities to come together and escape the city with green space, relaxation.
- 14. A wild life and natural resource in an urban environment for all to enjoy
- 15. Accessible urban green space with a forest
- 16. A treasured natural resource in need of restoration and preservation.
- 17. I would hope to see Pease Park become a vibrant, resilient and ecologically diverse green space in the heart of the city where visitors can experience a consistent respite from the stress of modern life while at the same time learning to recognize and appreciate the inherent natural features that represent the beautiful natural characteristics and qualities of our home town.
- 18. Places like Please Park, when cared for and well managed, are what make Austin feel like home. When people feel at home they care about place.
- 19. Clean: water, well maintained.
- 20. Safe
- 21. Beautiful destination and transportation corridor
- 22. Urban oasis
- 23. Not just a destination for local neighborhood residents but for all Austinites and part of the Austin trail system.
- 24. I need a word for no special events except eyesores, ever. No exceptions.
- 25. Multi use
- 26. Easy access (parking).
- 27. Keep Pease Park as a safe and healthy green space
- 28. Protect and enhance the natural environment so that it's a welcoming green space for walking and relaxation.
- 29. Sustainable green space
- 30. Control dogs / access.
- 31. Bicycle and pedestrian access
- 32. Oasis in Downtown Austin
- 33. Keep a fairly natural feeling
- 34. Vision Statement preserve, enhance natural elements and beauty of park.
- 35. Protect natural habitat for birds, animals, trees, plants.
- 36. Make/keep the park safe an oasis in the city.
- 37. Protect the historical elements of the park they give it character.
- 38. Oasis of natural green space
- 39. Neighborhood park
- 40. Alive and green
- 41. A safe, natural looking/feeling park that everyone feels welcome coming to.

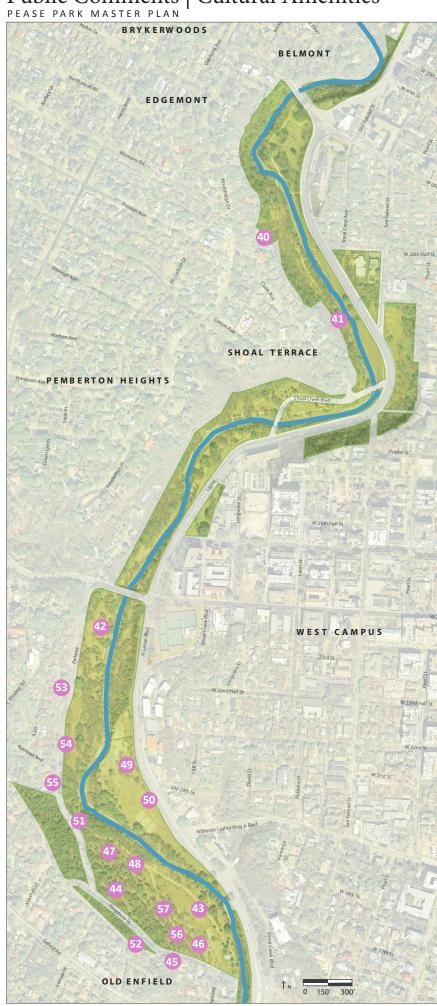

PUBLIC MEETING #1 - NOV. 21, 2013 INVENTORY & ANALYSIS PUBLIC INPUT COMMENTS

Public Comments | Natural Resources

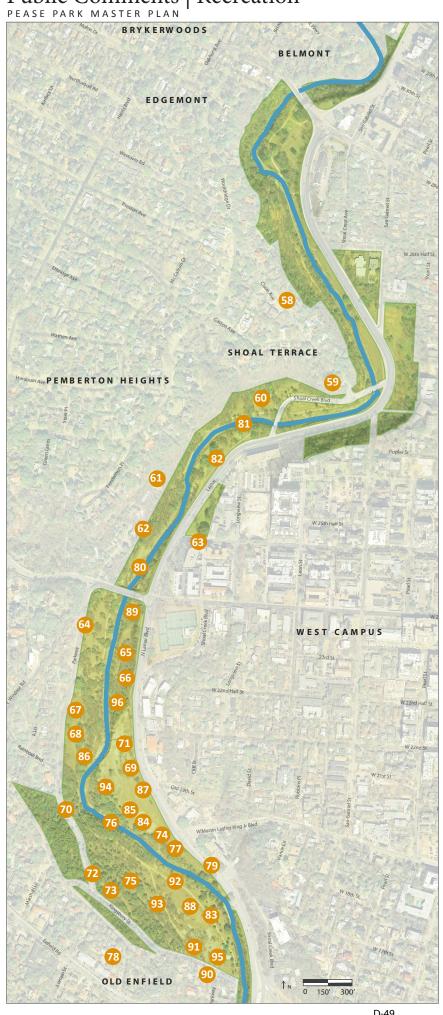

- 1 Greenway healthy, natural rec. and transportation corridor.
- 2 Don't mind concentration of recreation
- Coordinate neighbors, Eeyore's, city maintenance in planting native species and identifying and removing invasives.
- Veg. degradation and soil compaction re: Eeyore's party, without restoration effort that Zilker receives after events. species and identifying and removing
- Low water crossing trail and crossing location next to volleyball court.
- 6 Needs care and attention. The creek bed and banks seem to be an afterthought.
- Keep natural hillside.
- 8 No Disc Golf...too destructive. Trees need to be protected from dogs. Every tree between 24th and 15th Streets has a urine line about 18" high. Remain-
- 9 Plan before acting! What is the ramble and how is it natural.
- Prefer natural area look with limited development. Don't want it to be a
- Crossing over the creek causing erosion should be discouraged.
- Keep as many natural areas as possible. Encourage more native vegetation.
- Prefer to see Park remain and be restored to as much of its natural state as possible; don't want to convert Park into amusement park or assembly
- Make creek appealing.
- A small stone stepped amphitheater might be nice. * I second this idea.
- More native vegetation.
- I love the Spanish moss in this area.
- 18 Reducing negative effects of stormwater.
- 19 Vibrant natural community.
- Dogs should not have as much access.
- Access to creek. Make it possible to appreciate the bluffs as a natural feature, not just an obstacle to squeeze past.
- This area needs a level permanent path. Erosion is a concern. Path under cliff is too low, too narrow.
- 23 Crossing at Cedar Springs area needs a concrete path, erosion is occurring.
- Rock/water/views: access and quality. Manage invasives. Lots of green space. Define creek access.
- Erosion Erosion
- 26 Coordinate plan; summer; sunset management.
- 27 Petanque Courts.
- Tai Chi Area / Gardens.
- Keep natural; slope too high.
- Keep a lot of green space.
- Smaller off-leash area; concerns about children; no dogs in playground area; on-leash south of 24th Street.
- Remove invasive trees/vines/bushes.
- Pink Granite? What is this?
- 34 Creative use of water.
- Lamar Crossing.
- 36 Nice to look down on / scenic bike route.
- 37 Wish water was cleaner.
- 38 Rock formations.
- 39 Grey granite block...3x3..what is it?
- 40 The creek is a natural classroom if kept in a natural state

Public Comments | Cultural Amenities

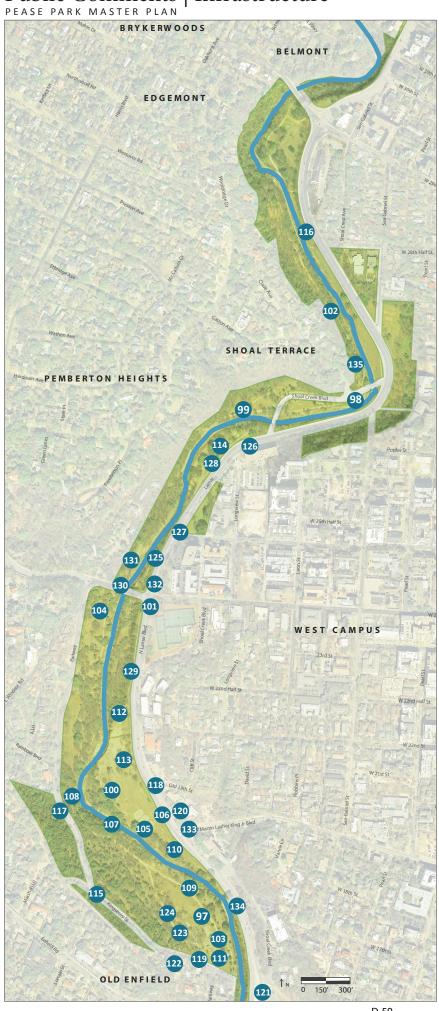

- Restoration needed.
- Uniform park elements.
- Retain the natural beauty of this "cultural landscape."
- More historic signage.
- Signage for self-guided historic walking tours.
- Enhance the main entry to Pease curb enhancements, walkways, traffic
- Wayfinding connecting downtown to the park and trail system. \\
- Restoration of all WPA stone walls.
- Interpretive signage.
- Cultural landscape.
- More petanque.
- No concession at old restroom.
- Need parking.
- Develop a node to accommodate special events to help take pressure off downtown.
- Opportunity to create a "grand" entrance to the park at Kingsbury and MLK
- Restore lighting at gateway.
- Tudor college not concessions./interpretive center.
- Rent out like Zilker clubhouse.

Public Comments | Recreation

- E. coli in creek is problem due to dogs. More dog waste receptacles.
- Dogs are an issue walkers do not respect on-leash boundaries.
- Wooded areas on the west could have more natural wildflowers off the path.
- Please consider a fenced-in off-leash area for dogs.
- Limestone boulders instead of metal benches. Very natural looking.
- Add/improve the lighting of the trail.
- Concern about parkway.
- Under utilized.
- Hope to attract civil audience.
- Slackline damage to trees.
- Slackline area.
- Protect/enhance view of city.
- Make parking larger.
- Need petanque courts here.
- Need pedestrian and bike path connecting Windsor to Kingsbury S to N.
- No pedestrian path connecting Windsor to Kingsbury.
- Need lighting for after hours park safety.
- Outreach needed so recreational activity respects the natural features.
- Concern about the crossing damaging the banks.
- Bocce courts here.
- We in Old Enfield don't want evening recreational activity.
- Locate a flyover walkway.
- Protect water quality and health of creek.
- We need to guard against erosion. We can't have a lot of creek crossings.
- Trail is in bad shape between 24th and Gaston.
- More restrooms needed.
- Need better quality volleyball courts and supporting amenities.
- Maintain the volleyball courts. This "traditional" use of the park is nice to see from Lamar.
- Petanque terrains.
- Bocce courts.
- Coffee/food truck needed.
- Wayfinding connecting downtown with the park and trail system.
- Beautify the entrance at Kingsbury. It has so much potential.
- No food areas/commercialization.
- Outdoor shower, water fountain and bathrooms needed at volleyball area.
- Exercise stations would be great here.
- Simple, natural amphitheater would be great.
- Registration/reservation process via internet. No charge!
- Temporary art display needed.

Public Comments | Infrastructure

- 97 Bathrooms and water fountains at dog park. And street pedestrian markings.
- 98 Better views of hiking trail at Shoal Creek north.
- 99 Trail needs improvement between 24th and Gaston.
- More water fountains.
- 24th Street bridge has narrow walkways. Erosion issues near impossible.
- 102 Improve the quality, consistency and continuity of hike/bike trail.
- 103 More restrooms needed.
- 104 Water fountains needed.
- 05 Need water hose and faucet for volleyball courts. Outdoor shower head.
- 106 Covered bus stop.
- 107 Bridge from Polecat Hollow to North Ramble.
- 108 Turn closed road into parking lot.
- 109 Improve restroom facilities.
- 110 Coffee/food truck near splash pad.
- 111 Sidewalks and bike lanes to entrance needed.
- 12 If you light it, they will come.
- 13 Areas east of creek should be more accessible to reduce W concentration.
- 114 ADA compliance needed.
- Bike/pedestrian crossing needed.
- 116 Widen the trail throughout protect scope.
- 117 Bike trail needed from Windsor to Kingsbury (S to N).
- 118 More trees along Lamar side.
- 119 No more parking! Folks need to walk or bike.
- 120 Encourage the bus stop. I'm anti-car.
- 121 Utilize shuttle vehicle during high-use events.
- Don't bring any more cars into the park!
- 123 More bike lanes and sidewalks.
- People need to walk/bike to park.
- Need wider, paved two-way bike path. Preferrably adjacent pedestrian path.
- 126 It's okay to have "empty", unprogrammed areas.
- It's a narrow park; there isn't room for much more trail without cutting up natural areas.
- 128 Empty spaces OK with me.
- 129 No lighting needed.
- Add lights under bridges. Beautify areas under bridges--they are scary.
- 131 Protect and "play up" historic bridges.
- Extend trail under 24th Street on east side of creek.
- MLK and Lamar need a bridge across Shoal Creek. Poor access from Old Enfield.
- Widen the sidewalk along Lamar south of MLK.
- Flashing light north of pedestrian crossing at Gaston; better safety view corridors at Gaston--trim the vegetation back.

PURPOSE OF TONIGHT'S MEETING

CONCEPT PLAN REVIEW

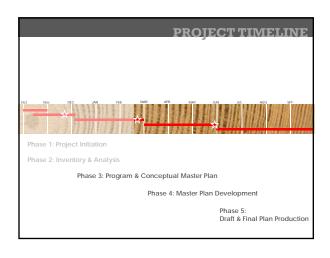

Purpose of Meeting

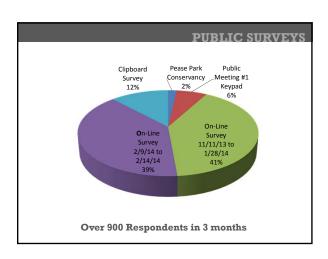

To review results of the feedback we have received, present the resulting park concept plan, and receive your comments.

Purpose of Feedback

Feedback will be reviewed and used to help guide development of the draft master plan.

VISION

Pease Park and Shoal Creek Greenbelt is:

- a green, urban oasis whose natural artery, Shoal Creek, and its forest, open spaces and cultural history are protected and enhanced.
- a safe, well-maintained and beautiful destination that is easily accessible for all, and serves the adjoining neighborhoods and all Austinites.
- a hub of Austin's trail system, where people gather as a community to enjoy recreation and respite.

GOALS

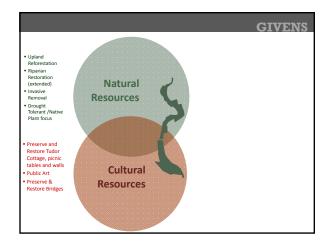

- 1. Preserve and Enhance the Natural Environment.
- 2. Preserve and Enhance the Cultural Environment.
- 3. Provide and Advocate for Infrastructure to Support Improved Use, Access and Civic Identity.
- 4. Provide Sustainable Recreation Appropriate for a Greenbelt & District Park.

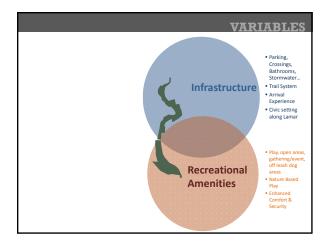

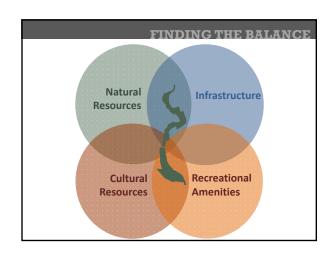

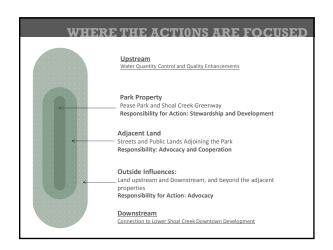

LEVELS OF "BETTER"

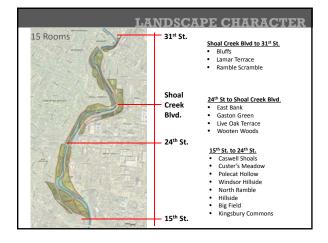

Base Plan

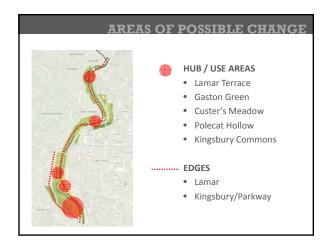

Keep what's good. Build what's already planned. Complete the restoration project. Improve what's urgent and quickly achievable.

Aspirational Plan

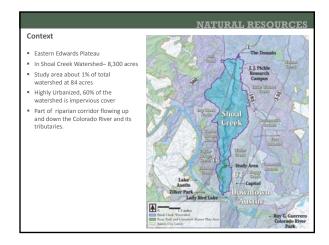

Reach for what might be possible in the future to make Pease Park the best it can be.

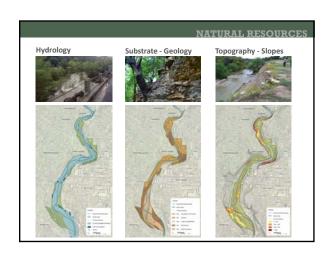

...Or somewhere in between....

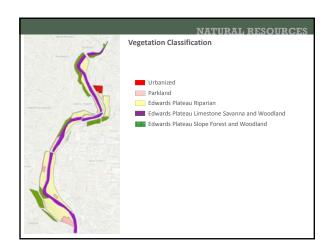

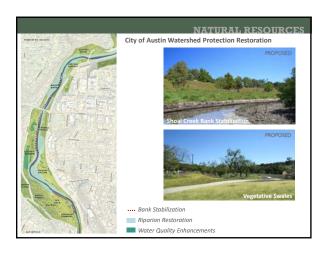

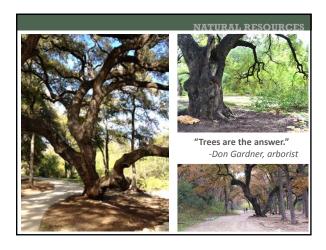

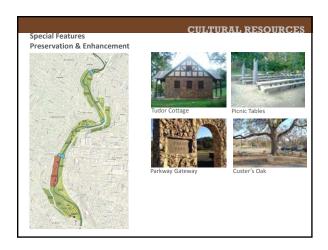

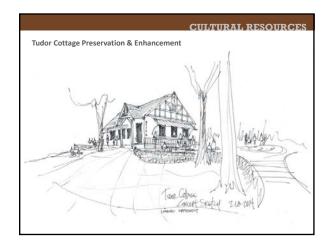

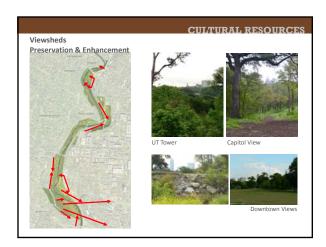

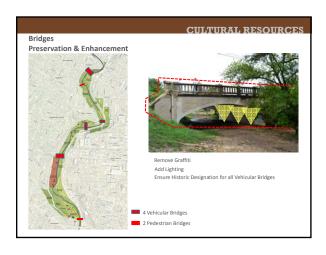

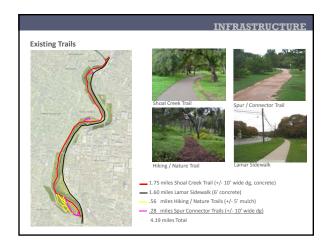

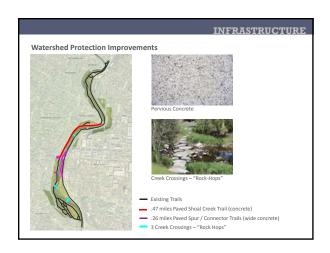

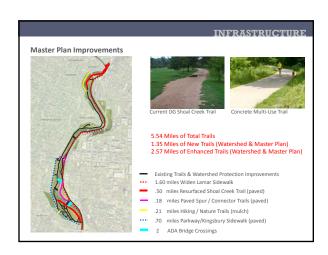

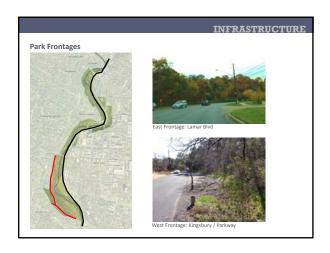

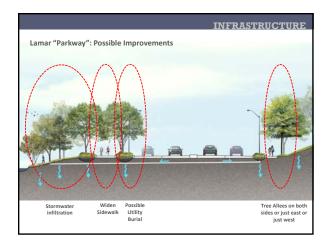

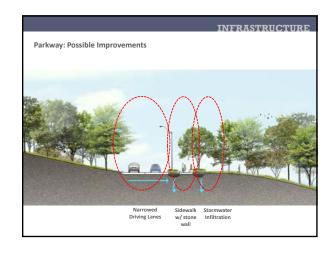

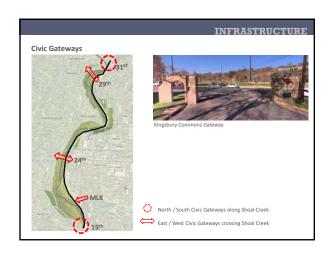

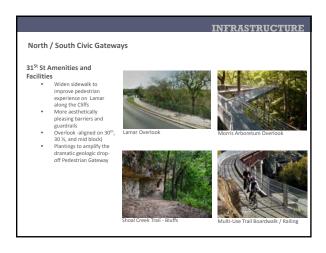

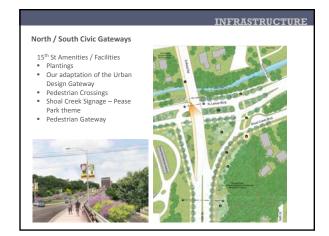

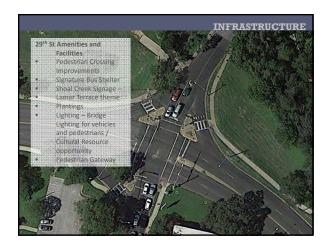

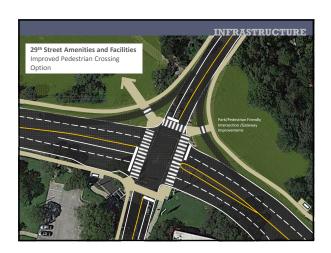

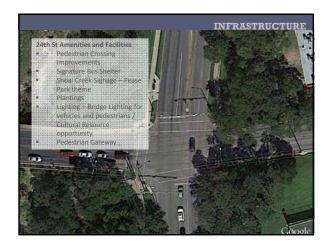

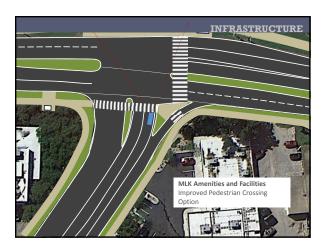

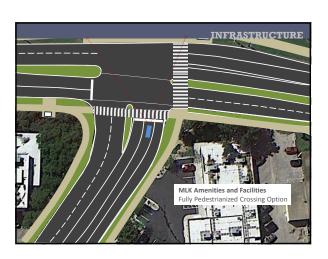

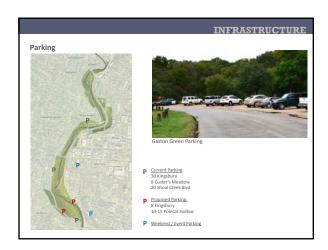

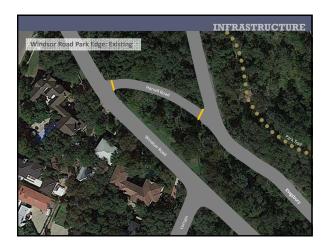

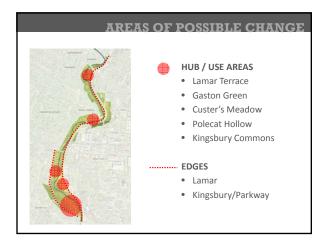

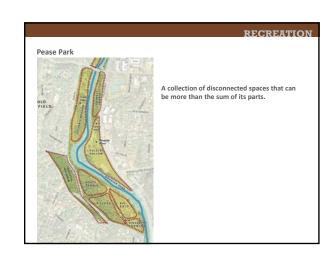

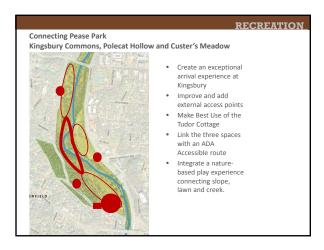

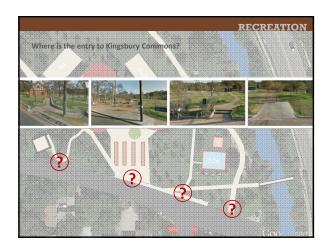

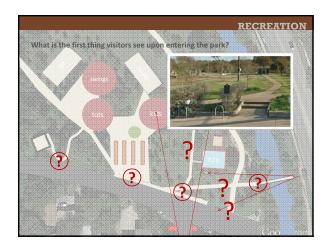

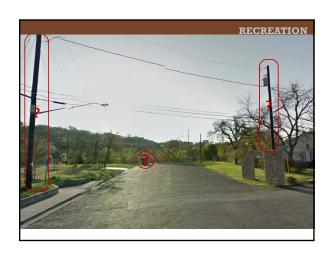

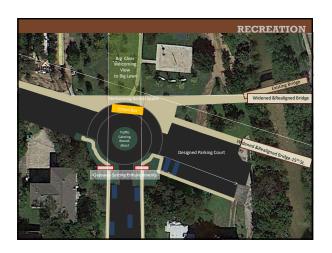

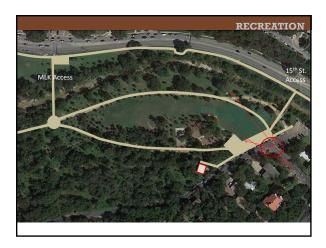

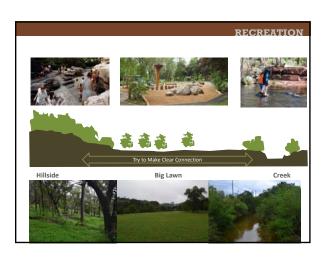

RECREATION

Kingsbury Playscape and Splash Pad

- Do families like it?
- What is working well? What is not?

Future Possibilities

- How could the playscape respond to current trends in play such as intergenerational and nature play...
- How could water play be integrated?

APPENDIX D8

PUBLIC MEETING #2 - FEB. 27, 2014 CONCEPT PLAN MAPS

Landscape Character Zones and Hubs
PEASE PARK MASTER PLAN D-79

Shoal Creek. These sixteen gems are defined as landscape character zones, and along with Lamar Boulevard and Kingsbury/Parkway illustrate the variety of places and experiences within Pease Park.

SHOAL CREEK

Its' tranquil and turbulent waters serve as a destination for park users and as a force of nature quiring bank stabilization and rinarian reforestation. Over 80% of the Pease Park Master Plans

1 THE BLUFFS

A piece of Hill Country in the City, the 40' high bluffs are a natural geologic landmark unique to the rest of the park. Cat Hole and Blue Hole are famous hideouts along The Bluffs that play prominent role in the cultural lore of Austin. The Bluffs suffer from bank erosion and an infest

2 LAMAR TERRACE

Characterized by level terrain out of the floodplain, Lamar Terrace is an unprogrammed open space with access to Lamar Boulevard and 29th St. Lamar Terrace is home to a sewer intercep which runs through the center of the terrace.

3 RAMBLE SCRAMBLE

The steep slope forest canopy of the Ramble Scramble is dominated by the live oak, cedar elm ashe juniper while the understory is being taken over by young non-native invasive plants. Ram Scramble is home to Split Rock, a huge boulder that split into two forming a forty-foot canyon

4 IAMAR SLOPE

Often confused as a right-of-way for Lamar Boulevard, Lamar Lawn is a narrow open space will access only from the Lamar sidewalk. The Lamar Lawn presents an opportunity for riparian rest ration and stormwater infiltration along Lamar Boulevard.

5 EAST BANK

East Bank is home to some of the steepest slopes in Pease Park which serve to funnel and dire views while driving along Lamar Boulevard. The wooden hillside is dominated by a cedar elm c

opy but suffers from hillside erosion and abundance of non-native invasive plants

6 GASTON GREEN

As the heart of the dog park, Gaston Green is the central open space north of 24th St. With er trances from Shoal Creek Boulevard and Gaston St., it is one of the few locations where you α

7 LIVE OAK TERRACE

The presence of mature live oaks and closely mowed herbaceous vegetation characterize the oriparian space of the Live Oak Terrace. At the heart of the terrace is a stone bench triangle nest amongst the trunks of three live oaks.

8 WOOTEN WOODS

elm groves with signature live oaks frame a pedestrian promenade reminiscent of a form allee. Frequent flooding along with heavy human and dog traffic have eliminated the groundcd and understory necessitating the need for immediate restoration efforts.

9 CASWELL SHOALS

Shoal Creek. This is the site of a new commuter bike trail with access to Lamar Boulevard and

10 CUSTER'S MEADOW

Named after the site of General George A Custer's encampment in the 1860's, this meadow is anchored by a stately live oak known as Custer's Oak. Custer's Meadow serves as a vehicular ar pedestrian gateway to the park and offers multiple creek access points to explore the waters or

Home to Lamar Knoll, Mesquite Grove and the popular volleyball courts, Polecat Hollow is the Home to Lamar Knoil, Mesquite Grove and the popular Wheysan Counts, Toecas i house of the largest open space on the east side of Shoal Creek with stunning views of Downtown Austin. Current creek bank soil erosion will be resculpted and replanted by the City of Austin Watershi

Protection Department.

12 WINDSOR HILLSIDE

forest and woodland of the Edwards Plateau. This upland hillside suffers from an abundance or

North Ramble is a Texas ash and ashe juniper dominated slope forest that suffers from hillside erosion. Like its neighbor, Hillside, North Ramble is home to many of the park's hiking and natu

14 HILLSIDE

Live oak trees frame a spectacular view of the State Capitol Building along this slope forest of a juniper, hackberry and cedar elms. Starting from the back of Tudor Cottage, Hillside, along wit North Ramble, includes the park's largest collection of hiking and nature trails.

15 BIG FIELD

to Eeyore's Birthday Party. Big Field offers sweeping interior views of the park as well as views of

16 KINGSBURY COMMONS

playground and splashpad as well as the Historic Tudor Cottage and iconic picnic tables. The h toric Pease Park Gates frame the main entry to the park. The mature tree canopy is dominated cedar elms and will eventually be joined by the recently planted sycamores, oaks and elms.

LAMAR BOULEVARD

Lamar Boulevard parallels the Shoal Creek for nearly two miles along the eastern frontage of Pease Park. With over 75,000 commuters a day and counting, Lamar Boulevard is a transportal artery that presents several challenges for Pease Park in terms of pedestrian connectivity, storm

KINGSBURY / PARKWAY

Together Kingsbury and Parkway form the western frontage of Pease Park. The two lane roads present an opportunity to connect Pease Park with the neighborhoods while defining what the character of a park road can be.

APPENDIX D9

PUBLIC MEETING #2 - FEB. 27, 2014 CONCEPT PLAN PUBLIC INPUT COMMENTS

- · Upstream water quality concerns.
- More trees on Lamar Terrace (many lost due to draught).
- More trees in Live Oak Terrace.
- The Bog.
- Purple pipes for irrigation.
- Disc golf.
- Water reclamation/storage using solar pumps / gravity pressure tanks.
- Covered picnic areas (open with | solar panels).
- I'm aware that dog owners need to be very sensitive to the impact they are having on the park and others that use the park. We need to avoid being "too hard" on the resources of the park.
- Dog owners need to help enforce the on-leash areas.
- I for one am writing to do what ever it takes to "share" the resources, i.e., restricted times, etc., so we can all enjoy the beauty of the facility
- Huge events in the park like Eey ores should be eliminated
- Eeyore's birthday party destroys the park. Several years ago a City Staff member reported that Eeyores did \$20,000 in damages to the park. I have a copy of that report. The impact of Eeyores on the park needs to be examined in this master plan.

What do you like?

- Off-leash dog area
- "semi wild" look of trail areas
- Hold the line on disc golf! Yes!
- Soft hiking trails for runners/walk ers.
- I prefer natural trails to cement, but I understand it not always feasible given floodplain.
- Trees! Native species!

- Cars speeding into 24th, 29th, Shoal Creek.
- Creek flood control, not wasting money on plans

- Strict enforcement of no dogs in play areas for young children.
- More dog waste stations.
- South of 24th dog free zone.
- Children first.
- Dogs in park.
- More signage
- More enforcement
- Dog waste and children interface
- Love the tree lined idea on Lamar.

What do you like?

 Bike path along Lamar (great, but needs shade and more protection from cars passing so closely on street).

- Need bus shelter on Lamar.
- Better reinforcement of on-leash areas
- · Tree-lined Lamar.

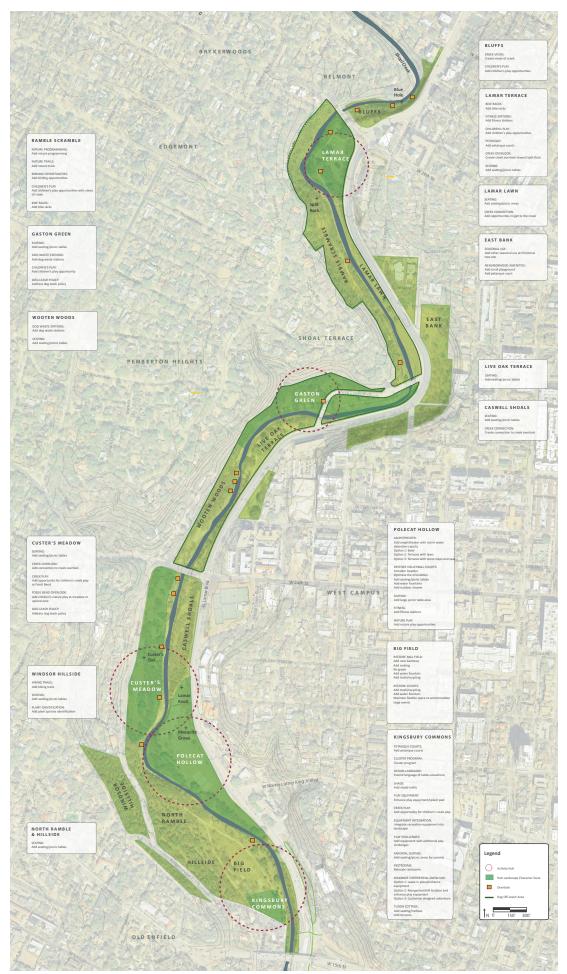

- Shelter at Dog Park.
- Disc Golf.
- Natural Art.
- Public Art.
- RR facility in Polecat...and picnic.
- Temporary toilets?
- Tudor Cottage: multi use
- o Event space
- o Pop up food venue for events
- Keep Cottage as restrooms.
- Tudor Cottage could be a changing room.
- Food trailers.
- Faux 3015: Bus top but with an Austin look or vocabulary. Great for place making!
- Small attractive restroom would be great.
- Solar Lights
- Love Bryerwoods Shelter like to see similar in Lamar Terrace.
- Unique "Austin"
- Vocabulary for new structures: "Rustic" traditional but forward looking – country in the city.
- Look at stacked stone for en trances to trails.
- Westlake sign at Redwood and Westlake Drive.
- Structures: grand but appropriate.
- New structures should have thoughtful, beautiful design.

What do you like?

• The cultural resources give the park so much history and character. I love the historic picnic tables and bridges.

- Re-purpose the Tudor Cottage.
- Bridges need to be protected.

- Kid/family opportunity in Lamar Terrace for families in Shoalcrest and Heritage neighborhoods.
- Add water for people and dogs.
- Keep this area (24th to 29th) off-leash.
 With Aud Shores changing, central
 Austin is woefully short on off-leash
 areas for big dogs. Small, fenced areas
 are insufficient for larger dogs, which
 are our greatest challenge to Austin's
 no-kill status.
- Collegiate Disc Golf (Carlos Richardson, president, UT Disc Golf: carlos.richard son@utexas.edu).
- Natural amphitheater with City view in back.
- Tying together Caswell Shoals, Carter's Meadow, Polecat Hollow, North Ramble, Hillside Big Field and Kingsbury com mute and running loop like on Lady Bird Lake.
- Small, flat field for informal croquet and badminton.
- A kid/family hang out area in Polecat Hollow
- There is volley ball for older kids/adults but something for the younger.
- Bocce equipment is provided by players (often 55+) and is heavy to carry. (Jeff Morris/Austin Bocce Club / djmy3K@ hotmail.com
- Bocce/Petanque Courts is near in-park parking. Kingsbury has easier access thru Lamar Terrace.
- Disc Golf / Disc Golf / Disc Golf Please
- NO disc golf
- Don't lose open field space.
- Please make sure recreation does not damage trees and creek.
- Bocce! (doesn't take up much space)
- ADA playscape
- Pavilion / crushed granite floor for Petanque
- Farmers markets, etc.
- Multi-use pavilion with crushed granite similar to Browning Hangar at Mueller Community.
- Petanque
- Farmers Market
- Much more....
- 3 bocce courts needed (Jean Luther / Austin Bocce Club / jluther@austinbc. com)
- Disc Golf tourney once a year on tem porary course – area that is Littleweed
- Covered picnic tables
- Petanque courts where parking is available
- Many times my children and I had close calls with discs that flew towards us, so we are glad that design won't exist.
- 3 Bocce courts needed near Kingsbury.
- The kids love it, but I think we can do better. (existing playscape)
- The playground equipment in Pease is boring and tacky.
- Petanque
- I would love to see the cottage used as a place to check out play/exercise equip ment like croquet sets, medicine balls, badminton sets, etc.
- Support educational play/learning about fossils, birds, flowers, etc.

What do you like?

 The cultural resources give the park so much history and character. I love the historic picnic tables and bridges.

- Re-purpose the Tudor Cottage.
- Bridges need to be protected.

APPENDIX D10

PUBLIC MEETING #2 - FEB. 27, 2014 PUBLIC INPUT NOTECARDS

PUBLIC MEETING #2

CONCEPT PLAN REVIEW – PUBLIC INPUT NOTECARDS

- Leash dogs in open areas and enforce the "dog-leash" laws.
- I support the uses for the Tudor cottage- either seasonal care or small rental space (like the zilker club house). I think the current bathroom building is inadequate and unattainable while I love modern architecture in this setting I think classic American park is an appropriate direction for any additional structures. Don't lose any current open/mowed fields they are loved and used. Please do not bring back disc golf too much damage to the trees. Splash pad- I think the current splash pad looks a little bit gimmicky. The one at eastwoods is much more understated and affective. Also I don't like seeing all the mechanical through the mesh wall. That should be screened better somehow.
- Parking? have any parking studies been done? This should be a yearlong review. For example, mid-summer is too hot and parking is fine usually. Like now in early spring on a weekend day there is no parking 2) the parkway entrance and dangerous traffic at odd times like evenings in football season there's no parking, much drinking, and traffic for House Park across Lamar. There are often children and other pedestrians crossing and fast traffic which is a bad mix. Humps have been mentioned. They are an ugly and un-inspired solution. What about varied paving's (Cobblestone Section). Rainbow and parkway would be an ideal location for a roundabout. And has anyone perused the option of taking over the streets of parkway and Kingsbury as a true park road.
- I walk with my dogs in Pease Park from Kingsbury and 27th street nearly every-day, sometimes twice a day on the weekends for at least 10 years. The park is getting more populated, full with students from west campus and the neighborhood. There are also a number of fitness classes, with a number of students. Pease is well used. When the disk golfers used the park it was somewhat being over-used: this was evident by the destruction of plant and grass and a large amount of bone rock and a distressed look to the park. Not to say anything bad about disk golfers who were universally good people. Unfortunately this area doesn't seem to work well with disk golf. I agree that the number 1 goal should be to restore ecological processes to provide a peaceful and useful greenbelt. It would be nice to have more flowering plants; the entire park should be no leash I have not ever seen any issues with dog on dog or dog to dog. There is no reason to force dogs to be on leashes.
- we strongly support the efforts of the Pease park conservancy, especially in the custor's meadow area. We ask that you not allow disc golf to return to Pease Park, due to environmental degradation.
- Love restoring Tudor traditional style. I'm a parent and resident of 78703. we are at the park several times per week. Thank you! Thank you! For removing the Frisbee golf course.

The park is coming back to life for families before one of my children was hit with a Frisbee while playing at the park. We were on the trail at the time- not on the Frisbee golf course. I would like to see the trail north of the 24th street Bridge repaired and the trail between Pease and town lake improved with lighting. It currently does not feel like a safe area of the park.

- Although disc golf is a wonderful sport it needs to stay out of Pease Park. Way too much
 environmental damage and not compatible with walkers, runners, and little children. Stray
 "balls" have hit kids and adults in the park. This wonderful sport needs to be in a properly
 designated park.
- Bull***! You don't want our feedback!!!
- Re tutor cottage patios: cut down no trees!!! Must use granite not imperious cover!! No Disc Golf!!! Yes to Trees and Native Species!!!
- The existing playground doesn't appeal to people over 5 or 6 years old. You need something more challenging and imaginative. Also, you need swings for the older children. Ramsey Park has some monkey bars and a zip line. If there is additional parking for all of the people who will use the park. I think it isn't enough as it is. After you add art, buildings, etc...It will no longer be a "natural park". I would prefer to plant more trees and ground cover. Keep the structures at the park the same and keep it a natural park.
- 1) Increase parking to balance increased services/ attendance? See the 'f' on the infrastructure map legend but not on map. 2) if you increase trees/sidewalks on east side of Lamar will be adversely affecting business (and their parking lots) =bad neighbors. 3) if you add shade structures make permanent- fabric ones require replacement every year or two in our environment = money wasted. 4) Playground equipment that spans more age ranges- not just toddlers. 5) Don't overdevelop park. Huge modern play structures look nice but then it turns into an amusement park and not nature/natural setting. 6) yea! More plants/grasses!! stabilize soil and make less blighted. 7) like ideas of benches and shelters but blend in- not modern
- As a neighborhood resident, my concerns are: 1) walking down to the park across Windsor and parkway without being cut down and having cut through traffic. 2) Parking that both makes the park more accessible but also Levels Park use at other times of the day. 3) Balance between giving the community access to the park and still respecting the neighborhoods not saying that I know how to do that ...just hope someone does. I am very thankful for the park and i am very grateful that so many other people are thinking about it.
- Pease park lighting- dark shy lighting please, non-glare. Building style- fresh! Non-traditional for new bridges shade structures and new gateways. Love the Amphitheatre - maybe have several.
 Rain-water collection- in the park for some of the watering of the plants. I am very excited about the future of Pease Park. I live in Pemberton and love to walk to the park.

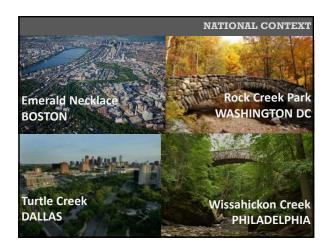

- The natural state of the park is what makes it so unique and nice. Keep it as natural as possible.
 Do not put commercial stands etc...in it. After all, people can get a cup of coffee etc,... in many places
- The park has continued to improve thank you for removing the disk golf. Although they were a great help during the 1990's at getting the illegal activity out of the park- they are not needed anymore. The park looks so much nicer without the compacted soil.

The Places of Pease Park

PEASE PARK MASTER PLAN

Think of Pease Park as a necklace, with sixteen green gems, each with its own character, strung along Shoal Creek. These sixteen gems are defined as landscape character zones, and along with Lamar Boulevard and Kingsbury/Parkway illustrate the variety of places and experiences within Pease Park.

As one of the seven creeks in Austin, Shoal Creek is the central spine flowing through Pease Park Its' tranquil and turbulent waters serve as a destination for park users and as a force of nature re quiring bank stabilization and riparian reforestation. Over 80% of the Pease Park Master Plan site s within the Shoal Creek Floodplain.

1 THE BLUFFS

A piece of Hill Country in the City, the 40° high bluffs are a natural geologic landmark unique to the rest of the park. Cat Hole and Blue Hole are famous hideouts along The Bluffs that play a prominent role in the cultural lore of Austin. The Bluffs suffer from bank erosion and an infesta-

2 LAMAR TERRACE

3 RAMBLE SCRAMBLE

The steep stope forest canopy of the Ramble Scramble is dominated by the live oak, cedar elm and ashe juniper while the understory is being taken over by young non-native invasive plants. Ramble Scramble is home to Split Rock, a huge boulder that split into two forming a forty-foot canyon.

Often confused as a right-of-way for Lamar Boulevard, Lamar Lawn is a narrow open space with access only from the Lamar sidewalle. The Lamar Lawn presents an opportunity for riparian resto-ration and stormwater infiltration along Lamar Boulevard.

views while driving along Lamar Boulevard. The wooden hillside is dominated by a cedar elm can-opy but suffers from hillside erosion and abundance of non-native invasive plants.

6 GASTON GREEN

As the heart of the dog park, Gaston Green is the central open space north of 24th St. With en tes from Shoal Creek Boulevard and Gaston St., it is one of the few locations where you can

7 LIVE OAK TERRACE

riparian space of the Live Oak Terrace. At the heart of the terrace is a stone bench triangle nestled amongst the trunks of three live oaks.

8 WOOTEN WOODS

9 CASWELL SHOALS

Named after the site of General George A Custer's encampment in the 1860's, this meadow is anchored by a stately live oak known as Custer's Oak. Custer's Meadow serves as a vehicular and pedestrian gateway to the park and offers multiple creek access points to explore the waters of

11 POLECAT HOLLOW

Home to Lamar Knoll, Mesquite Grove and the popular volleyball courts, Polecat Hollow is the largest open space on the east side of Shoal Creek with sturning views of Downtown Austin.

Current creek bank soil erosion will be resculpted and replanted by the City of Austin Watershed

12 WINDSOR HILLSIDE At one of the highest elevations above Shall Creek, Windsor Hillside typifies the dry-mesic slope forest and woodland of the Edwards Plateau. This upland hillside suffers from an abundance of non-native invasive plants.

13 NORTH RAMBLE North Ramble is a Texas ash and ashe juniper dominated slope forest that suffers from hillside erosion. Like its neighbor, Hillside, North Ramble is home to many of the park's hiking and nature

rees frame a spectacular view of the State Capitol Building along this slope forest of ashe juniper, hackberry and cedar elms. Starting from the back of Tudor Cottage, Hillside, along with North Ramble, includes the park's largest collection of hiking and nature trails.

15 BIG FIELD

As the largest open space in Pease Park, Big Field serves as a multi-purpose event field and home to Eeyore's Birthday Party. Big Field offers sweeping interior views of the park as well as views of the kind of the park as well as views of

16 KINGSBURY COMMONS

Kingbury Commons is the recreational heart and cultural isoul of Pease Pair. It is home to the playground and splashpad as well as the Historic Tudor Cottage and conci pcinct tables. The historic Tudor Cottage and conci pcinct tables. The historic Pease Pair Case Fame the main entry to the pair. The matter tree caropy is dominated by cedar elms and will eventually be joined by the recently plainted sycamores, oaks and elms.

LAMAR BOULEVARD

Lamar Boulevard parallels the Shoal Creek for nearly two miles along the eastern frontage of Pease Park. With over 75,000 commuters a day and counting, Lamar Boulevard is a transportation artery that presents several challenges for Pease Park in terms of pedestrian connectivity, stormwater management and utility restrictions.

KINGSBURY / PARKWAY

Together Kingsbury and Parkway form the western frontage of Pease Park. The two lane roads present an opportunity to connect Pease Park with the neighborhoods while defining what the character of a park mad can be

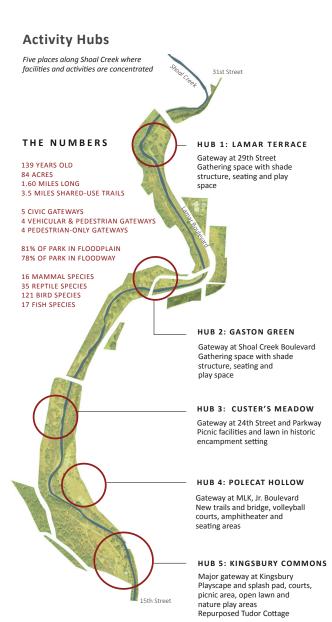

Austin's Civic Greenway

PEASE PARK MASTER PLAN

A Landmark Place in Austin

Donated by Governor Pease in 1875, Pease Park is the historic core of the Shoal Creek corridor. Located on the geological edge of the Balcones Fault, it forms the urban edge between Downtown, the Capitol, the UT neighborhood and West Austin.

Vision Statement

Pease Park and Shoal Creek Greenbelt is:

- a green, urban oasis whose natural artery, Shoal Creek, and its forest, open spaces and cultural history are protected and enhanced
- asafe.well-maintained and beautiful destination that is easily accessible for all and serves the adjoining neighborhood and all Austinites
- a hub of Austin's trail system, where people gather as a community to enjoy recreation and respite

Goals & Areas of Action

NATURAL RESOURCES

Preserve and enhance the natural environment

- · Reforest woodlands
- · Restore riparian areas (extension of Watershed)
- Remove invasive species
- · Focus on drought-tolerant and native plants

CULTURAL RESOURCES 2

Preserve and enhance the cultural environment

- · Preserve and restore Tudor Cottage, picnic tables and walls
- Incorporate public art
- · Preserve and restore bridges

INFRASTRUCTURE

Provide and advocate for infrastructure to support use and access

- Add/enhance parking, crossings and restrooms
- Manage storm water
- Enhance trail system connectivity
- Define and enhance arrival experiences

RECREATION

Provide appropriate recreation

- · Add/enhance play opportunities, open spaces, gathering and event spaces
- Add nature-based play opportunities
- Enhance comfort and security

APPENDIX D14

PUBLIC MEETING #3 - JUN. 5, 2014 DRAFT MASTER PLAN COMMENTS

BLUFFS

- The existing historical signs along the trail just south and north of the 29th Street Bridge are incorrectly placed. They should be switched
- This land is privately owned (not by COA where sidewalk currently is).
- Double check property deed stamp at Lamar and 31st Street.

RAMBLE SCRAMBLE

- Disc golf.
- Can we extend off-leash areas to low-water crossing? Happens anyway.
- Why only one area for off-leash? Is there still one area?
- Expand dog park from Gaston to 31st.
- Don't expand dog park.

LAMAR TERRACE

- Smells like sewage.
- No restroom here.
- Hole #1 for disc golf.
- (3-4) bocce courts $(13' \times 60')$ solid base under crushed granite or thick outdoor carpet. On-site storage for balls and court maintenance by players.

GASTON GREEN

- Picnic table in off-leash? Not compatible uses.
- 14 Dog area off-leash.
- 1 Does the off-leash dog park remain?
- History hut? Place for someone to sleep 1
- If there is an added restroom, it should be here not at 29th Street.
- 18 This area could be an art park—take out the trees.
- Please keep dog off-leash and on-leash areas the same. I use the park at least twice a day and see all of the people who use it. It's a healthy balance of dog owners and non-leash areas the same of the people who use it. It's a healthy balance of dog owners and non-leash areas the same of the people who use it. It's a healthy balance of dog owners and non-leash areas the same of the people who use it. 19 dog owners. There is no reason to not allow dogs, period. It would be nice to mention that the dog areas will stay the same in the plan. Conscious of dog areas and picnic areas with regard to food, etc. It should be clear with signage that people know it is an off-leash area if picnic area is added. I've also noticed two copperhead snakes.
- Remember areas for the Pease family. Marhall, Lucadia (Mrs. Pease) and Julie.

WOOTEN WOODS

- Too dangerous for disc golf.
- There is a constantly eroded trail section. Can this be integrated with concrete section? Staff drives over it and it ruts.
- All these cute names for areas are not historically correct. Forget them!

CASWELL SHOALS

- Dogs off leash.
- Shoal Creek was up to its banks twice in 24 hours last month. Most of this plan does nothing for this!
- Disc golf.

POLECAT HOLLOW

- MLK Gateway Bus stop at busy intersection. Move back so people can get to light?
- What is dotted line? Why does it zig-zag across Lamar? 100-Year Floodplain.

CUSTER'S MEADOW

- Disc golf.
- No disc golf?
- Dogs off leash
- Off leash dog gateway.
- Please change name from Custer's Meadow to something else. Custer is not a 3 name to be honored.
- If you put a stair—people will run in front of traffic and cross street. Not go down to crosswalk $\,$

WINDSOR GATEWAY

- Windsor Gateway needs bike ramp and should not be so wide.
- 66 R.O.W. issues

KINGSBURY COMMONS

- This is an historic park. Use only Pease family names.
- Shameful—get rid of Eeyore's. They contributed to the consultant fee and bought their way out of the plan.
- No dogs on-leash or off-leash in play and picnic areas.
- What happened to Jill Nokes' row of trees?
- 41 Make new building look historic (Tudor Cottage).
